Massage Tubs | Multifunctions | Shower Enclosures | Shower Panels

AMORE healing

Hydrotherapy

Water in its many forms cleanses your health and vitalizes it. The dissolved natural minerals have long been known to promote health through their restorative and detoxifying properties.

Water jet Massage or Hydrotherapy involves point-to-point pressure through water bursts to relieve some common health disorders. It requires immersion of body in warm or cool water or an invigorating contrast of the two. Generally, heat soothes the body, Slowing down the activity of internal organs. Cold, in contrast, Stimulates and invigorates, increasing internal activity.

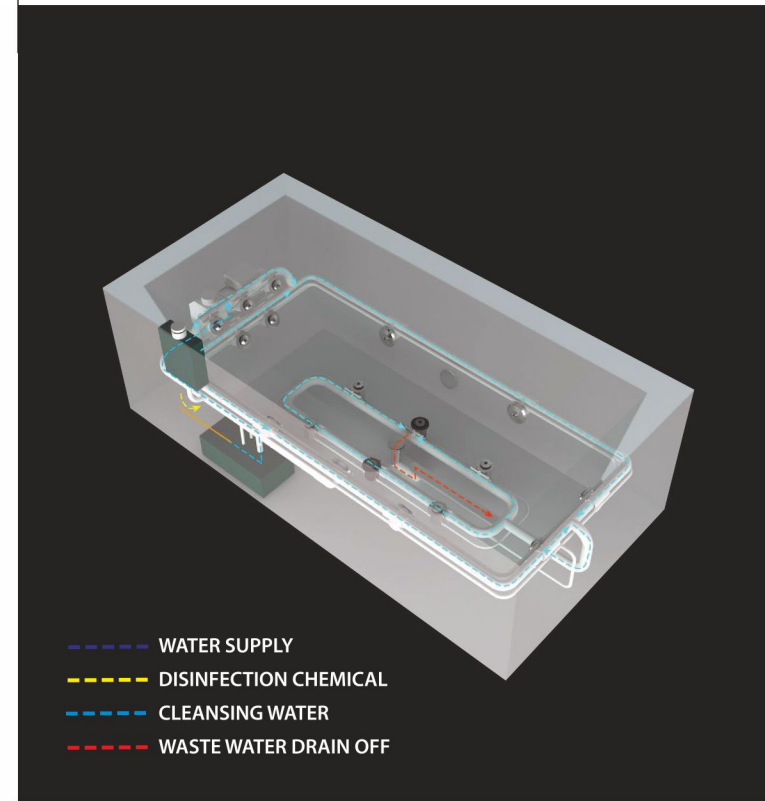

Aromatherapy

Aromatherapy is form of alternative medicine that uses volatile plant materials, know as essential oils, and similar aromatic compounds from plants, for the purpose of improving a person's mood, cognitive function of health. The essential oils are absorbed in the body with two main ways, inhalation and absorption by skin. The most noteworthy psychological benefits of Aromatherapy are spirit stimulation, mental clarity, stress relief and mood improvement. On the other hand, essential oils can help circulation system, support immune system, regulate human hormones and aid skin regeneration just to name few of the physical benefits.

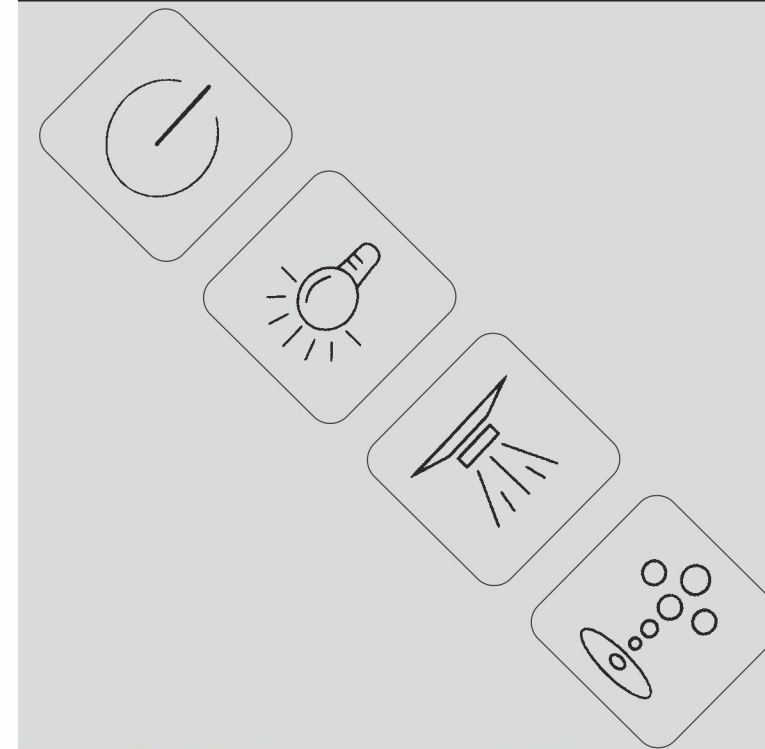

Chromotherapy

Chromotherapy, sometimes called colour therapy, light therapy or colourology, is based on the fact that certain colours are infused with healing energies. The therapy uses the vibgyor spectrum to heal the mind and body.

Amore brings in the therapeutic qualities of light and colour to your very own bathroom. The light(S) are securely fixed and are finished in chrome to help you to relax, rejuvenate and replenish

AMORE edge

Super Hygenic Disinfection System

SUPER HYGENIC Disinfection system makes use of totally enclosed disinfection system, which is original and most innovative design by Amore. All the piping system will be filled with disinfection material and be thoroughly disinfected. SUPER HYGENIC disinfection makes disinfection to the piping system before and after use of the tub, safeguarding the user from any harmful bacteria.

Active Safety Systems

Amore feature an RCD (Residual Current Device) as standard. The RCD immediately stops electrical flow to the unit, if it detects a short circuit, lack of water supply or overheating.

Water Level Sensor

This prevents the whirlpool system from starting up until the bath has filled to a given minimum level, there by damaging effects of an incorrect start are avoided.

Absolute Quality of Raw materials

Amore uses a pure Lucite Acrylic, which is especially rigid & therefore, notably scratch resistant, as well as being impervious to acids, grease & water. By selecting materials at the top end of the quality scale, Amore promise of lasting good looks & well being to match.

Minimalist Touch Control Panel

The products are equipped with most advanced built in luxurious touch control panels with color display. Everything is just a touch away, without those numerous control knobs.

Micro-nano bubble skin care system

Negatively charged micro nano bubbles attract bacteria & when they break, created heat & hydroxyl radicals destroy bacteria. After bathing in micro nano bubble bath for few times, obvious skin detoxification and dermatoses improvement effects will be achieved. Supersonic is generated when micro-nano bubble pops in case of the body. This supersonic penetrates the depth of the body & warms up from the inside of the body. Great soothing effect is thus achieved.

Terms and Conditions:

1. This warranty is confined to first purchaser of the product only.
2. Warranty period is valid from date of purchase of the unit and can only be availed if the valid proof of purchase is shown to Authorized Service Personnel at the time of repairs. Customers are therefore required to keep original invoice and warranty card safely. Repair or replacement will be carried out by company's service centre or its authorized service associates. Incase of no sales receipt or any other confirmation of the sales date, warranty period is calculated from the production date. Failure to submit any the above documents may result in refuse for free servicing of faulty equipment.

3. For all units installed beyond the municipal limits of the jurisdiction of the company service Centre/authorized service associate, the expenses incurred with regards to deputing the service personnel towards to & fro travel, conveyance and other incidental expenses etc. will be borne by customer.
4. In the event of repair/replacement of any part/s of the unit, this warranty will thereafter continue and remain in force only for the un-repaired period of warranty. Moreover, the time taken for repair/ replacement and in transit, whether under the warranty or otherwise shall not be excluded from the warranty period.
5. The company and its authorized service centre reserves the right to retain any part/s or Component/s replaced at its discretion in the event of a defect noticed in the product during the warranty period.
6. Any part/s of product replaced by the company at its discretion shall be with functionally operative part.
7. All the accessories like Remote, ABS Hand Shower etc. carries 06 months warranty from the date of installation.
8. In case of any damage to the product/customer abuse/repairs by un-authorized personnel/misuse detected/bythe Authorized Service Center personnel, the warranty conditions are not applicable and repairs will be done subject to availability of parts and on a chargeable basis only.
9. Replacement of parts would be purely at the discretion of Brilloca alone. Incase the replacement of the entire unit is being made,(subject to the sole discretion of Brilloca), the same model shall be replaced and in the event such model has been discontinued, it shall be replaced with the model of price equivalent at the time of purchase.
10. While the company will make every effort to carry out repairs at the earliest, it however is made expressly clear that the company is under no obligation to do so in a specified period of time.
11. This warranty shall not cover any consequential or resulting liability, damage or loss to property or life arising directly or indirectly out of any defect in the Product. The company's obligation under this warranty shall be limited to repair or providing replacement of defective parts only under the warranty period.
12. The warranty does not cover any accessories external to the product.
13. The manufacturing warranty does not cover any transportation and handling costs and the risks resulted from improper switching off and/or mounting/dismantling the unit.
14. In case of any dispute, this warranty is subject to jurisdiction of Bahadurgarh (Haryana) Courts only.

This warranty is not applicable in following cases:

1. Proof of purchase, Invoice in Original and/or Warranty Card is not shown to company authorized service personnel at the time of repair. In such cases service will still be rendered however it will be on chargeable basis as per the standard rates of labor and/or parts (as the case may be), prevailing at that point of time.
2. Installation/repair work is carried out by person/agency other than the authorized company personnel or the product is not installed/used according to the instruction given in instruction/installation manual.
3. Site conditions, where the product is installed, does not confirm to the recommended operating conditions of Product as specified in the instruction manual of the product (supplied along with the product)
4. Defect caused by improper use, as determined by the company authorized service personnel.
5. Defect is caused due to cause beyond control like lightning, acts of god, abnormal electrical supply or while in transit from dealer's outlet to purchaser's residence.
6. Damage to the product or any part/s due to transportation or shifting is not covered by warranty.
7. This warranty will automatically terminate on the expiry of the warranty period of 5 years from the date of Purchase, even if the Product may not be in use for any time during the warranty period for any reason.
8. The malfunctions caused by violence of operation, servicing and maintenance guidelines either by Customer or third parties or caused by unauthorized design modifications shall not be covered by warranty.
9. The manufacturing warranty does not cover any transportation and handling costs and the risks resulted from improper switching off and/or mounting/dismantling the unit. The contractor in charge for mounting, electric and adjustment operations shall be responsible for warranty of these works. In any case the indemnity amount shall not exceed the actually paid value for the defective unit price
